

1. Please preserve an independent decision process with CDC's ACIP and reverse the decision to remove the recent expert advisors and bypass his policies limiting access to COVID vaccines.
2. Please require all members of ACIP to disclose all financial and other conflicts of interest.
3. Please understand that currently available FDA-approved vaccines have been proven safe and effective; and children, adults, and pregnant people all of whom rely on CDC ACIP vaccine recommendations for access to vaccines and insurance coverage.
4. Please continue to recommend widespread and unhindered access to a wide range of vaccines to protect people of all ages in the US.
5. Please preserve a universal recommendation for COVID vaccines for people of all ages, including children and pregnant people, at least twice annually.
